

February 2, 2022

Dear Residents, Family, and Friends;

On Sunday, January 30<sup>th</sup> a vaccinated staff member tested positive for COVID-19 secondary to household exposure. Today we learned a vaccinated resident tested positive for COVID-19. Nursing staff-initiated testing of all residents and staff. We will continue to test staff and residents and work closely with the Pennsylvania Department of Health and Epidemiology for guidance and support.

In the interim internal visits are paused in the Secure Dementia Care Unit except compassionate care until two (2) consecutive rounds of testing are cleared. We understand how disappointing cancellation of internal visits can be and thank you for your on-going understanding and support. We kindly remind everyone to be diligent during outings or visits to maintain social distancing, hand hygiene and use of face masks as Butler County's positive rate is 24.5% (high risk).

Please monitor our Facebook page and our website for all future updates as we continue to navigate through this exposure and ongoing pandemic together. If you have any questions or concerns, please speak with our Support Nurse Supervisor (Deb Negley, LPN) or myself.

Stay safe and well,

*Christal Ostrowski, LPN*
