

September 30, 2021

Dear Residents, Family and Friends,

We unfortunately became aware earlier this week of a vaccinated resident testing positive for COVID-19. Nursing staff-initiated testing of all residents and staff. During the testing process one vaccinated staff member also tested positive. We will continue to test staff and residents and work closely with the Pennsylvania Department of Health and Epidemiology for ongoing guidance and support.

In the interim group dining, activities and internal visits were paused except compassionate care. We understand how disappointing cancellation of internal visits can be and thank you for your on-going understanding and support. We kindly remind everyone to be diligent during outings or visits to maintain social distancing, hand hygiene and use of face masks as Butler County's positive rate is 13.7% (high risk).

Please monitor our Facebook page and our website for all future updates as we continue to navigate through the pandemic together. If you have any questions or concerns, please speak with our Resident Services Director (Jackie Storey-Akins, LPN), our Support Nurse Supervisor (Deb Negley, LPN) or myself.

Stay safe and well,

*Christal Ostrowski, LPN*  
Executive Director
